

Classes

On Monday, Wednesday and Friday there are 4 hours of German lessons in small online classes with about 12-14 students. Classes start at 8:30 *am* CET. On Tuesday and Thursday there is an intensive communication training in the "class café", after that there is a choice of different courses in German Studies. E.g. popular culture in Germany, phonetics, regional studies and others (in total 4 ECTS).

Some of the German Studies classes will be held in English, so that beginners in German can also take part.

The lessons take place on Zoom and are communicative and interactive. In addition, there are further exercises on a learning platform for individual learning.

Experienced, very motivated teachers lead the classes. They bring a lot of intercultural competence and look forward to working with international participants. Our goal is to combine intensive language practise and fun - and yes, of course this is also possible online!
